

May 14, 2010

To all Parties:

EGNB- Application for Rate Increase
Addendum to Board decision dated April 30, 2010

In its decision of April 30, 2010, the Board indicated on Page 3 as follows:

"...The present decision will deal with all classes except for the LFO class..."

At page 4 of the decision, the Board granted the applied for increases for specific classes. Inadvertently, the decision failed to specifically mention the distribution rates for the Off-Peak Service, Contract Large Volume Off-Peak Service and Natural Gas Vehicle Fueling classes. Accordingly, those rate classes are addressed in this addendum.

ADDENDUM

The Board has determined that the applied for rates for the Off-Peak Service, Contract Large Volume Off-Peak Service and Natural Gas Vehicle Fueling classes are just and reasonable. The following rates are approved effective as of May 1, 2010:

Off-Peak Service	\$9.3118 / GJ
Contract Large Volume Off-Peak Service	\$8.8616 / GJ
Natural Gas Vehicle Fueling	12.4158 / GJ

Lorraine Légère
Board Secretary
