**Re: Review of Enbridge Gas New Brunswick's (EGNB) Financial results for the fiscal period ending December 31, 2009.**

On July 6, 2010 the New Brunswick Energy and Utilities Board (Board) heard submissions on the status of reports ordered as a result of the Annual Review of Financial Results as of December 31, 2008. The reports were filed with the Board in May of 2010. The Board has made the following determinations:

1. The Board will allow the Cost Allocation Methodology report to be used by all parties in this hearing. EGNB may submit evidence to support a requested change in the allocation of corporate costs for 2009. EGNB may also submit a proposed amended set of regulatory Financial Statements that reflect this requested change. This information is to be submitted with the filing of any additional evidence for this proceeding on October 22, 2010. The change in methodology will be debated during this hearing.
2. The report related to Installation Services is available for use in this hearing.
3. The Board has determined that issues related to Agent Billing and Collection fees are more appropriately dealt with as a rate matter rather than an issue for the Annual Review.
4. With respect to the Lead-Lag study, the Board has determined that it will not order such a study at this time.

Yours very truly
